Employee Leave Policy

EMPLOYEE LEAVE POLICY — DEMO PROJECT

Version: 1.0 | Applies to: Demo employees | Calendar year: 2026

1. Annual entitlement

Each employee is eligible for 24 leave days per calendar year under this demonstration policy.

2. Leave types

Planned leave: leave requested in advance.

Sick leave: leave reported for illness.

The example data tracks request status as PENDING, APPROVED, TAKEN, or REJECTED.

3. Public holidays

The dates in india_holidays_2026.csv are the demo holiday calendar supplied for this project.

A public holiday must not be deducted from an employee's leave balance. If a request overlaps a holiday, the application should exclude that holiday from chargeable leave days.

Holiday dates can vary by state/company calendar and year. Confirm this list with the actual company holiday calendar before production use.

4. Carry forward and lapse

At calendar year-end, a maximum of 5 unused eligible leave days may be carried forward to the next calendar year. Any remaining unused days above the allowed carry-forward amount lapse. This is a simplified demo rule; real policies may treat leave types differently.

5. Leave beyond entitlement

If a request would exceed the employee's available eligible leave, the chatbot should clearly warn that the request is outside the 24-day company entitlement. Any salary deduction or unpaid-leave handling must be confirmed by HR/payroll; this demo only displays a warning and does not calculate salary deductions.

6. Privacy and access

Demo emails use the reserved example domain abc.com. These are synthetic records, not real employee data.

Employees should only access their own leave information; managers should only access their reporting team; HR may have broader access. Implement these permissions using authenticated identity and Snowflake role controls before production use. An email-domain check alone is not sufficient security.

7. Calculation notes

Only APPROVED and TAKEN requests count as committed/used leave in the demo balance. PENDING requests are shown separately and are not deducted until approved. REJECTED requests are not deducted. Weekend treatment is not specified in this demo policy and must be confirmed with HR before production deployment.
